

# Welcome to Siteon

Siteon design, build and manage bespoke Software as a Service applications (SaaS) delivered on demand via the internet....

Siteon apps are secure, easy to use and are continually being modified and developed. Each app is fully Managed and Hosted by Siteon and require no user licences or expensive equipment.

Siteon Apps - embrace today's technology and utilise it to your advantage.

## Trader Register

The Trader Register is a secure on-line software application that was designed by Trading Standards for Trading Standards and is fully managed and hosted by Siteon and requires No User Licences or IT Support and is:-

- Currently the preferred platform for 17 Local Councils
  
- With 16 Home improvement Registers run by Trading Standards Departments and 1 Social Services Department  
Mobility Register
- A system where each Scheme is run Independently to each Councils own Standards, specifications and branding.
- A system that provides Local Consumers with an on-line, fully branded and locally recognised register of vetted Traders.
- A system that provides Local Traders with a fully supported Council Service.
- A system that brings new and old Trader Schemes together onto one managed platform.
- A system where all schemes are interlinked to give consumers the best possible choice of trader for their job regardless of Scheme, brand or specification.
- A system that provides Consumers with a Feedback and Complaint system, directly managed by their local Trading Standards Department
- A system that helps Consumers choose a Trader by providing them with a Gold Star Rating system for every Trader.

You can view any of the 17 Trader schemes on the platform by clicking on the Council's link below:
